Participant's Personal Commitment to Duty & Privacy

Background

'In all great critical periods in history, humanity goes through the agonising struggle and suffering of rebirth. Great forces of destruction are afoot and seem to be dominant, but constructive and creative forces that will redeem humanity are silently bringing about transformation.' The current directive or authoritarian orientation of mankind is now moving towards a collaborative, cohesive and cooperative existence, towards a reorientation in the New Life of the creative forces for the New Humanity.

The collaborative symbiotic orientation is based on three true understandings, **Love**; the real nature of love and of the unity of all life on earth, **Truth**; to each do their unique Divine Duty and to take Responsibility for themselves and their actions, and **Peace**; to work together selflessly and collaboratively for the benefit of all, loving and serving one another selflessly, so achieving Love, Truth and Peace, for the New Humanity living the New Life.

The fundamental endeavours of the New Humanity Foundation and its global Collaborative Community is to live the New Life of the New Humanity collaboratively and in harmony with each other, the Earth, and all her life, plants, creatures and environments, focused on socially and environmentally sustainable self-sufficiency for mankind.

Collaborative Orientation

Through their commitment to the collaborative orientation, people endeavour to live life with love, freedom, harmony, peace, prosperity and privacy, and to eliminate competition, conflict and rivalry. They dedicate themselves to live the word of God, the Creator, which means to live their individual Divine Truth. The personal commitment to love one another, which is to love God, giving no importance to nationality, class, creed, age, gender or religious ceremony, promoting Self Responsibility and upholding the sovereign rights and duty of each man and woman in the community, whilst at the same time making no judgements about others. To recognize and acknowledge that the 'Real Self' alone is powerful and as such, responsible for the 'false self'.

Participants

'Participants' means those free men and women on the land who are dedicated to the purpose of the New Humanity Collaborative Communities and all its Associates. The Participants volunteer and commit to the New Humanity Collaborative Communities and exercise their own sovereignty and freedom with the greatest possible degree of privacy, responsibility and interdependence. They are encouraged to exercise their fundamental rights in pursuit of their own Divine Truth and higher Self.

Participants in the New Humanity Collaborative Community all undertake an active role in the Collaborative Families, Projects or Enterprises so making a sincere commitment and contribution to the wellbeing of all in the Community in which they live. Each Participant is fully responsible for their own actions and fulfils the Role in their Community that they would truly love to carry out. Participants may change the Roles they perform from time to time and in doing so train their replacement.

Participants are fully sustained in return for their voluntary efforts, and as in most not for profit (nfp) non government organisations (ngo), they are sustained and have accommodation or housing, food, clothing, transport, schooling and training, health and any other requirements and allowances (sustenance) commensurate with the Role they fulfil, all fully provided.

Collaborative Family Members

Participants and Family Members in the Collaborative Community are fully sustained and provided for through funding from the various New Humanity Collaborative Community Projects and Enterprises that they fulfil Roles within. Each Collaborative Family has its own nfp ngo Private Family Foundation which receives its sustenance resources from New Humanity Collaborative Community enterprise organisations.

The Terms of Participation support the selfless service and Manonash of Participants and the environmentally and socially sustainable self sufficiency of their Collaborative Community. Manonash means, annihilation of the ego. The Age of Maturity for Collaborative Community Family Members is in their 15th year, at which age the girl or boy is entitled to become a Participant in their own right and so accept the associated responsibilities.

All Members and Participants of the New Humanity Collaborative Communities, whether they be Members of a Collaborative Family or a single Participant, are entitled to free health services and free schooling and learning where provided by the New Humanity Collaborative Community.

New Humanity Collaborative Community

New Humanity Collaborative Communities and Tribes are made up of Participants and New Humanity Collaborative Family Members. They strive to live in concord with Earth and all her life and wisdom.

Duty and Responsibility

These principles of Duty and Responsibility are based on Truth and Self-responsibility, cooperation and non-manipulation of others. *'People always put the blame for their dissatisfaction and suffering on others. But the fact is, when one suffers it is one's own fault. You become excited, angry and suffering, and then lay it all on somebody else. But if you had gone beyond the lower self, you would have taken it calmly, swallowed it and remained unaffected. If you are firm, nothing will upset you. If you try, you will surely have it.'*

Natural Sovereignty

Men and women Sovereign Rights are the rights of a natural person, a human being, to be a free man or woman on the land, with Divine rights, to privacy, to freedom, to love, to independence, to speak and to remain silent, to give and to receive, to apply their natural energy, to think, to breath, to apply effort and to work, to take decisions, to increase their capacity, and amongst others include the right to be on the land on earth, to play and be joyous, to create, to have family and children in a secure environment, to be sustained, to journey and travel, to have natural creditworthiness and freedom to trade in a free market. In addition, every woman and man has the right to freedom from financial servitude, usury and all its impositions, entrapment, threats, inhumane or cruel treatment, slavery, arbitrary deprivation, unjustified accusation and attack, and all types of prejudice, whilst maintaining personal and community security.

A natural person's sovereignty is based on the aforementioned unalienable, imprescriptible and unlegislable rights. Sovereignty itself remains intrinsic to the individual man or woman by whom and for whom all governments exist and act. Sovereignty is not subject to law for it is the author and source of law. There can be no limitation to the sovereign rights of the individual, and these acknowledged rights pertain equally to each Participant and Member of the global New Humanity Collaborative Community.

Privacy

These Terms of Participation are private and as such are covered by the Participants Privacy Commitment and in particular the Participant agrees to keep private and not disclose any Private Information relating to the New Humanity Foundation or New Humanity Collaborative Communities, at any time or by any method and in particular as may be arbitrarily deemed necessary by any purported authority or by any statutory or legislated law, so exercising their sovereign right to privacy under natural law.

This commitment is required for each Participant's role in the New Humanity Collaborative Communities and the various Projects and Enterprises that those communities undertake. All Collaborative Community Projects and Enterprises are guided and operated under the Collaborative Management System. They are located in rural and regional areas and use new technology and science to support environmentally and socially sustainable self-sufficiency for mankind.
